

Inflatable Chesterfields

This great new design by Blofield gives the classic Chesterfield sofa a whole new dimension. This version inflates in just five minutes with the aid of the electrical pump - and when you're finished with it you can use the pump to deflate it. No more lumps, bumps or broken springs - and a convenient, comfortable sofa just when you need it!

Ideal for using outdoors, or inside when additional seating is required (think events, weddings, festivals and parties) it has a multitude of potential uses. It comes with a hip trolley bag too - adding to its ultimate portability!

Unlike other inflatable furniture this is a toughie and made from a durable material to give long lasting use.

Key benefits at a glance:

- Made from tough PVC material
- Easy to clean, just hose it down with a pressure spray
- Easy to inflate and deflate with the included electrical pump
- Takes up very little storage space
- Includes repair kit in same colour material
- Red Dot Design winner
- A modern twist to a classic design
- Great for gardens, beaches and pool areas
