

## Flutes, tumblers & shot glasses

### The perfect way to light up your life or... drink!

Along with excessively fiddly canapés, among the most tedious things to deal with at parties is continually trying to remember where you've left your champagne flute. Yes, we know. Nightmare. Thankfully, your misery has now been spared thanks to these eye-catching lit champagne flutes, which colourfully light up when they are filled, giving you something to search for in the dark. And, when they're emptied (which they will be, no doubt), the light goes off, meaning that whoever is doing the rounds with a fresh bottle knows exactly where they should be headed.

- Colours: Red, orange, yellow, blue, green, white and pink set of 6 with mixed colours and set of 10 one colour
- Material: Polystyrene crystal, disposable
- Battery: Uses lithium batteries that give minimum eight hours of use (cannot be removed)
- Safety: ROHS, food compliant
- Cleaning: Wash by hand
- Dimensions Flute: 65x180mm
- Dimensions Tumbler: 60x120x65mm
- Dimensions Shot glass: 150x140x50mm
- Other: Customization possible

### Use

Simply fill the glass up with your drink and it will glow and brighten up your night. When the glass is empty, the light goes off. The glass can be used several times until the battery is exhausted and will provide a minimum illumination time of 8 hours. In order to maximize the effect, make sure you use the glass in a dark environment. Place the glasses on trays and fill them up when your guests are just arriving. The glasses can be used for all types of parties and events; also as an incentive or promotional item.

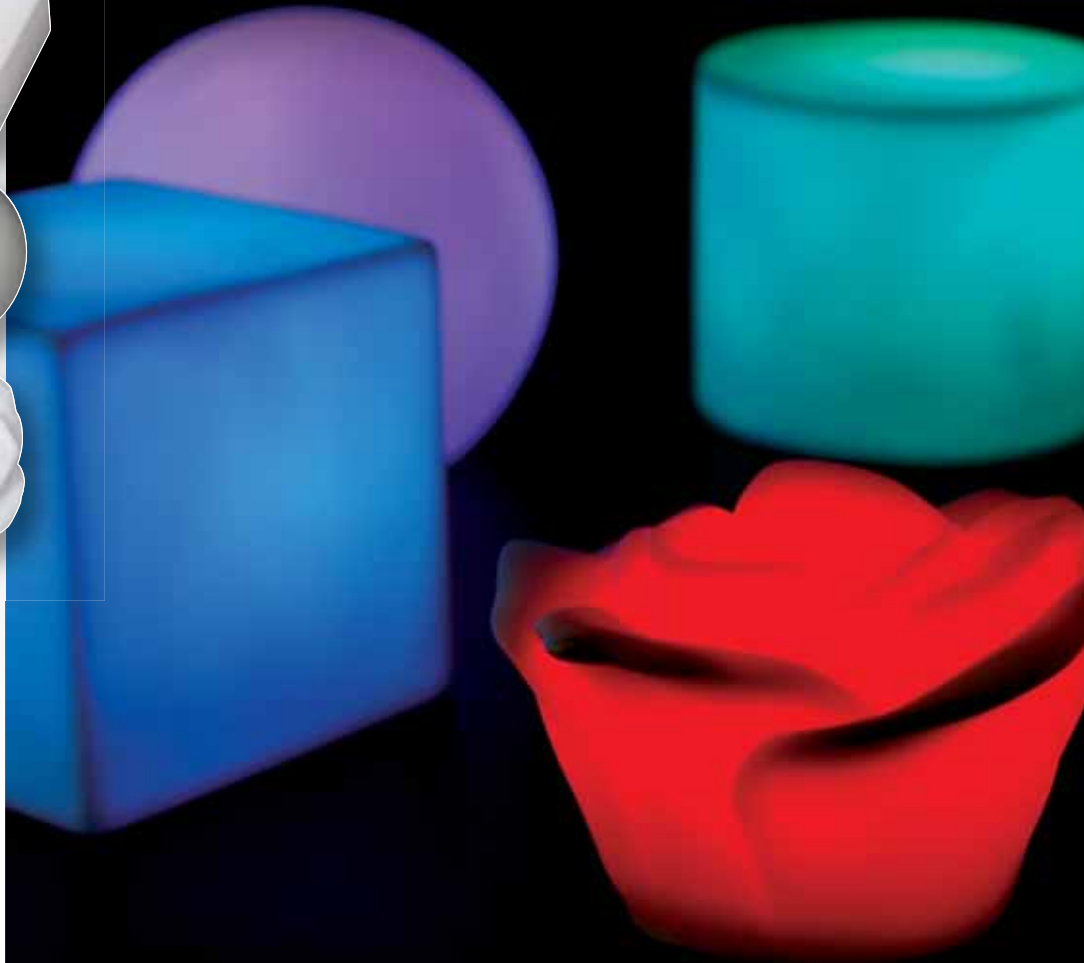

## Mini globes... and other shapes

### Water + Lights = One rather cool pool

If you're the experimental sort, you may have noticed that electric lights and water aren't two things that mix particularly well. Many a bathing experience has been ruined in the making of this discovery. Thankfully, we've now got our hands on these incredible floating Mini globes, which automatically turn on when placed in water, and will bob around your tub or pool for up to 10 hours of cool illumination.

Should you prefer a less damp lighting experience, we've also got non-floating versions of the mini globe, which can add some instant colour to a garden or dining table.

- Colours – floating mini globes: continuously changes colour, automatically switches on when it touches the water
- Colours non-floating mini globes: static or colour changing
- Light: LED, 3 mm
- Material: White PVC
- Battery: Uses 3 AG13 button batteries that give minimum eight hours, of use and can be easily replaced
- Shapes: Cubic, oval, round, star, cylindrical or rose.
- Sizes:
  - Cubic: 60 mm side
  - Round: diam 80 mm
  - Oval: large diam 75 mm, height 81 mm
  - Star: overall 80 mm, height 53 mm;
  - Cylindrical: diam 70 mm, height 60 mm
  - Rose: diam 80 mm, height 45 mm
- Other: Customization possible, with logo/text print
