size: 6.5 x 6.5 x 14cm

material: PE

**flameless candle**

size: 8 dia. x 22 cm

material: PE

same,  
same but  
different...

During the process of glass manufacture sometimes small air bubbles are produced which remains in the glass as it cools, similarly the hand-picked mosaic tiles can vary slightly. We see this as an aesthetic feature of glass and not an imperfection or irregularity, making each lamp an original and we hope you appreciate its individual nature.

## what's in the box?

### Each set includes:

- One induction charging tray
- Two identical lamps (select from the ten available models )
- Adaptor
- One remote control
- Connector cable to connect up to maximum two charging trays

Link up to two trays onto one single charger  
- connector cable included

### charging trolley

56 x 30 x 70cm  
3 shelves fitted with  
charging plates for up  
to 24 lamps in total

## LED lamp collection

## Solar lamps

Simply leave the lamps outside in the sun to charge and get up to 7 hours of burn time. Being solar they don't have any cables so you can use them and move them anywhere.

However if the weather does turn and you need to head indoors a charger is included.
